BADDAM RAJESHWAR REDDY

baddamrajeshwar6@gmail.com 9618762894 Rajeshwar Rajeshwar-03

PROFILE

Motivated and enthusiastic fresher with knowledge of HTML, CSS, Python, MySQL, and basic Java. Looking for an opportunity to apply my skills, learn new technologies, and contribute to the growth of the organization.

EDUCATION

B.Tech in Computer Science & Engineering(AI&ML)-JNTUH 2022 – 2026
St.Peter's Engineering College Hyderabad,India
CGPA: 9.20

Intermediate in MPC 2020 – 2022
Sri Gayatri Junior College Hyderabad,India
Percentage: 93%

Secondary School 2019 – 2020
Little Flower High School Thorrur
CGPA: 10

SKILLS

Languages:- Python, Java(basics)
Web & APIs:- HTML, CSS, JavaScript(basic)
Databases:- MySQL, Supabase
Servicenow: CSA and CAD
Tools & Platform:- Git, Github, VS Code, Jupyter Notebook

PROJECTS

Secure E-Health Records Storage on Cloud Using Cryptography and Blockchain Smart Contracts

- **Tools Used:-** Python, Java Servlet, Solidity, Attribute-Based Encryption (ABE), Inter Planetary File System (IPFS), Java Servlet, JSP, VS Code, Ganache, Truffle.
- Patient health records are encrypted using ABE and stored in IPFS instead of centralized servers. Only authorized users can access the data, ensuring confidentiality and preventing data leakage.
- IPFS file hashes are stored on Ethereum blockchain through smart contracts to provide tamper-proof storage, integrity verification, and secure access control with full audit tracking.

Smart Grocery Billing & Object Detection System Using AI
Tools Used:-Python, YOLO, OpenCV, Gradio, SQLite, FAISS, CNN

- Developed an AI-powered product recognition and automated billing system using YOLO object detection and OpenCV image processing.
- Applied CNN-based feature extraction and FAISS similarity search for accurate product identification.
- Automated bill generation and price calculation using SQLite database integration.
- Improved product detection accuracy through image preprocessing and barcode validation technique

INTERNSHIP

AICTE-Edunet Foundation(Artificial Intelligence and Data Analy tics)
Technologies Used: Artificial Intelligence (AI), Data Analytics, Machine Learning, Green Skills & Sustainability
Role Played: Completed a 4-week virtual internship focused on AI and Data Analytics. Engaged in projects related to Green Skills and sustainable AI applications. Learned and applied concepts in data-driven problem-solving and AI implementation.

CERTIFICATIONS

- Data Analysis with Python
- Google Cloud Computing Foundation
- Certified System Administrator
- Introduction to Java
- Certified Application Developer
- HTML, CSS, JavaScript
